### Introduction

| Name of Project                   |
|-----------------------------------|
| ID-54125 -Web App Pentesting 2025 |

| Agreement Description   |
|---|
| <i>Under this Statement, the Customer entrusts the performance of the following activity to the Supplier (hereinafter referred to as the "Services"):</i><br><ol style="list-style-type: none"><li>Black Box Penetration Testing of the BlindSec Portal Web Application</li></ol> |

| Execution Dates  |
|--|
| <i>The assessment is planned to commence on 28<sup>th</sup> of March 2025 at 13:30 Athens time, and completed on 28<sup>th</sup> of March 2025 at 19:30 Athens time.</i> |

## Scope of Work

The scope includes one web application assessment which can be found below:

| Type | Applications                | Endpoints                    |
|------|-----------------------------|------------------------------|
| Web  | BlindSec Portal Application | portal-dev.blindsecurity.net |

## Scope Limitations

No user accounts will be provided for any of the aforementioned application. Therefore this can be approached as a black-box assessment.

Additionally, the following attacks are deemed out of scope and therefore are not permitted:

1. Phishing Attacks / Social Engineering Attacks
2. Denial of Service Attacks (DoS) and Distributed Denial of Services Attacks (DDoS)
3. Active scans on the websites in scope (dirbuster, gobuster, sqlmap, etc)
4. Password Guessing / Password Bruteforcing

All other attacks not specified by Blind Security are permitted.

## Location

The work can be performed from either Athen's main event location (University of West Attica), Thessaloniki's hub location (University of Macedonia), Patra's hub location (University of Peloponnese) or remote. The durations are as shown below:

| Site            | Duration |
|-----------------|----------|
| Office          | 6 hours  |
| Remote Location | 6 hours  |

## Deliverables

| Deliverable     | Objective   | Due Date                      |
|-----------------|---|-------------------------------|
| List of flags   | Flags and amount of flags captured                                    | 28/03/2025, 19:30 Athens Time |
| Findings Report | General purpose report detailing the identified issues and kill chain | 28/03/2025, 19:30 Athens Time |

## Resources

| Consultant Name     | Role                | Level             |
|---------------------|---------------------|-------------------|
| Your-Team-Lead name | Project Manager     | Senior Consultant |
| Team-Member         | Fieldwork Execution | Consultant        |
| Team-Member         | Fieldwork Execution | Consultant        |
| Team-Member         | Fieldwork Execution | Consultant        |
